

Gimme 5: Explained

Read your reading book at least 3 times a week. This will improve reading fluency and understanding, exposing children to a wealth of rich vocabulary.

Practise your **spellings** as often as possible. New words will be given out every Friday for the children to learn in preparation for a test the following week. Spellings will help support phonics and writing skills.

Practise your **times tables**. This can be done using TT Rockstars or in other fun ways. Rapid recall of multiplication facts will support your child's overall Maths skills, aiding the solving of all 4 calculations.

One piece of **Maths OR English** homework will be given to your child every Friday. This will reinforce and further their understanding of a skill or concept they have learnt that week.

Mindfulness and Wellbeing. Healthy minds are vital to success and happiness. It is important that you take time to do the things you love and enjoy! We value quality family time and weekend should allow for this. These activities are self chosen but could include : swimming, kite flying, countryside walks, baking, watching a movie etc. Your child will be encouraged to talk about this.
