

# Animals including humans (Digestion)

Concepts		Core Vocabulary			
system	growth	digestion	absorbed	oesophagus	intestines

## A great Scientist...

- develops scientific knowledge and conceptual understanding through all aspects of science.
- develops understanding of the nature, processes and methods of science through different types of science enquiries that help them to answer scientific questions about the world around them.
- is equipped with the scientific knowledge required to understand the uses and implications of science, today and for the future.

## Science Knowledge

I can name the main body parts involved in the digestion process (Mouth, stomach, small and large intestine).

I can describe the simple functions of the basic parts of the digestive system in humans.

## Science Skills

I can set up a simple practical enquiry.
