A top geographer...

- can understand geographical concepts such as place and scale, distance, region, change and process.

Geography Knowledge

I can identify position of the Grand Canyon in North America and the surrounding oceans.

I can recall the names of the states that the Grand Canyon falls under.

I can explain how the rising of tectonics and movement of water helped to form the shape of the Grand Canyon that we see today.

I know that the riparian area is the interface between land and a river or stream.

I know that the Grand Canyon is a popular tourist attraction and can explain the impact that this has had on the area.

Geography Skills

Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Use the eight points of a compass, four and six-figure grid references, symbols and keys to build knowledge.

Observe, measure, record and present the human and physical features.
