A top geographer...

- can understand geographical concepts such as place and scale, distance, region, change and process.

Geography Knowledge

I can identify 3 well known rainforests.

I can describe the change in seasons in rainforests.

I know the 4 strata of a rainforest and animals that live there.

I can identify types of plants that occupy the 4 layers.

I know that there are people that live in the rainforest and can discuss their lifestyle.

Geography Skills

Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Use the eight points of a compass, four and six-figure grid references, symbols and keys to build knowledge.

Observe, measure, record and present the human and physical features.
