

Animals including Humans (Body & senses)

Concepts		Core Vocabulary			
function	environment	hearing	taste	smell	sight

A great Scientist...

- develops scientific knowledge and conceptual understanding through all aspects of science.
- develops understanding of the nature, processes and methods of science through different types of science enquiries that help them to answer scientific questions about the world around them.
- is equipped with the scientific knowledge required to understand the uses and implications of science, today and for the future.

Science Knowledge

I can identify, name and draw the basic parts of the human body (inc. head, neck, arms, elbows, legs, knees, face, ears, eyes, hair, mouth and teeth).

I know the 5 senses touch, taste, smell, hearing and sight.

I can identify which part of the body is associated with each sense.

Science Skills

I can compare different textures, sounds and smells
